

# Unit 8 Assignment: Create a Graphic

---

Create a simple graphic that includes at least three basic shapes and three different colors. The shapes and colors must combine to make a recognizable picture. Save the graphic in one of the standard formats that you read about when you perused the links suggested in the content area above. Insert your picture on a simple blank page created using your desktop publishing software. On the second page of the document, indicate the software you used to create the graphic and how you will use it in your classroom.

## Graphics creation software packages:

- Paint.net
